DIRECTIONS FOR USE

Surface Preparation :

Give at least 6 months maturation for new plaster. Ensure that the surface is free from dust, loose matters etc. prior to application previous coatings should be scrapped off if not in sound condition. Light sanding with emery paper no.320 is recommended for previous coating in sound condition.

Application :

Apply thin coat of Godavri Universal/Cement Primer (solvent/water based) if necessary. Apply wall putty in thin layers (Uno Spray Plaster) to overcome surface imperfections. One more coat of Godavri Universal/Cement Primer is recommended as an undercoat on the putty for the best results. Sand lightly with emery paper no.320 and then apply 2-3 coats of Acrylic Distemper by brush or roller keeping an inter coat interval of 4-6 hours.

For touchup or self priming Godavri Cement Primer water based and for new unpainted surface Godavri Universal Primer solvent based is recommended.

Do not over thin and strain thinned paint before application.
